This is what Josh has come up with after going over AmyMarie's edits. I thought this was from Beth - and I was wrong - so please forgive the confusion.

Subject: RE: WSP suggested edits on the Proposed Plan

Hi AmyMarie,

Overall it looks great and I am impressed on how well everything is simplified but I do have some concerns

As I mentioned on the call earlier, my biggest concern is that the presentation does not really tell the story on how we got to where we are. The RI and risk assessments are mostly skipped over. The waste and sewer concerns seem to just pop up as objectives without really explaining what they are beforehand. I think the easiest way to address this is to add a map of the site pointing to the areas of concern and I can talk through each of the areas. This can take the place of the lead map.

I also made a few more suggestions in comments on the PPT (see attached). Michael suggested that there should be a discussion regarding the "most likely anticipated future use" somewhere to address the CAG concerns. I am not sure exactly where we should add it.

Thanks!

Josh

Josh – Attached is WSP's suggested edits on the Proposed Plan. There are a few photographs that I would like to give to you in higher resolution. Currently, the file is using a low resolution image. Please let me know your availability to talk.

Regards
AM
